

THANK YOU!

Your donations and support have been invaluable in helping to keep vulnerable children in education during the pandemic and provide support to families in need.

INTO Giving now supports three new projects!

YUM - Indonesia

Click to follow hyperlinks!

With a donation of £5,000 (US \$6,400) your help is providing 170 schoolchildren, all 7-13-years old (and more than half of them girls), with free afterschool tutoring and remedial lessons through Yayasan Usaha Mulia - or YUM, for short.

Children On the Edge - Syria

Your help is supporting 270 Syrian refugee schoolchildren, all 7-14 years old (of whom 45% are girls) who have fled their country's civil war, to Zahle, Lebanon. Subjects taught include maths, science Arabic, English, French, history.

Children's Education Foundation - Vietnam

With an initial grant of £4,250 (US \$5,400), you have sponsored the education of three schoolgirls in Vietnam. Your support for Ha, Hien and Trinh through INTO Giving will provide the girls' school fees, stationery and other classroom materials, costs of books and compulsory uniforms, shoes (including sports shoes) and numerous other requisite school costs.

HOW YOUR DONATIONS ARE ALREADY HELPING

buildingblocks

Your donations sponsor the education of 15 schoolgirls at **Building Blocks** in Bangalore, India, and have enabled us to donate £10,500 (US £13,500) plus an additional £1,000 (US \$1.300) for emergency relief during the COVID-19 pandemic.

Classrooms during COVID

Your support has allowed Building Blocks to rise to the challenge of teaching from home, getting children online and providing them the tools to learn effectively during COVID.

Not only are they providing regular online lessons, Building Blocks has also distributed phones and dictionaries to students and food supplies to families and single mothers.

Food Bags	60 Single Mothers
Food Distributed	300 Flood Victims
Phones	56 Students
Oxford Dictionary	100 students
Desks	17 Students
Vegetables	73 Families/ 15kg/each

As well as essential academics, Building Blocks teaches hygiene, character and social development, technology, physical education and more. These learning centres literally open up a new world for these children. For the first time they are able to wash their hands in clean running water, they are taught how to use a toothbrush. Things that seem so simple to me and you: like using coloured crayons, are an unbelievable luxury for these children.

GIVING TUESDAY

MAKE A WORLD OF DIFFERENCE

USA

UK and ROW

Join the global day of giving

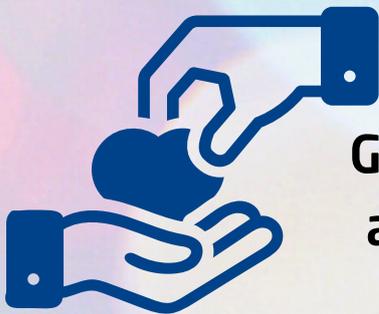

December 1st 2020
